

Saila's Story

Gorgeous Weather

When I woke up in the morning it was very nice weather; it was sunny and it was snowing too. After I ate I went for a walk and went to visit my older sister. I was happy while I was there and I saw my older sister Naulaq. After I came from my sister's, I went to the store and bought lots of groceries. While I was on my way home, it was windy, very snowy and also cloudy. When I got home I started to make something to eat; it was delicious. I made lots of food. I got so tired when it got dark in the evening. I went to go to sleep at 11pm. How will the weather be tomorrow?
